

I oppose media concentration!

I am writing to you today to comment on Docket No. 02-277. To limit our choices in favor of the largest media holders is anti-american.

We have always been a country who has favored choice (how many different cereals are there for your breakfast?).

I am not in favor of allowing the few and the powerful to provide our information and entertainment.

Please reverse this bad decision the FCC has made.

Give us, at least the hope of more not fewer choices.
